Biffy Clyro

i'd like to be in a bucket of pee until everything else is just fine
you would believe what i cannot deceive until everything else is just mine i am over you
i am over i'd like to be all the love that i feel for the woman who keeps me alive
you'd like to know what went into the home that covers me now i'm alive i am over you
i am over you
til the memories complete in me i'd like to be in a bucket of pee until everything else is just fine
you would believe what i cannot deceive until everything else is just mine i am over you
i am over you
til the memories complete in me i am over you
i am over you
til the memories complete in me i will undo half of the things that i should've been through
i will have done everything else that you needed to do
needed to
