Glow In the Dark

Family Force 5

You energize me
I've never felt this before
Oh, and it's blinding
Brighter than the sun at its coreThis heart that is beating
Without worth repeating
A fire to be something moreI glow in the dark
You are made of light
Glow all day
Glow all night
Like the stars up in the sky
We keep on shining you and I
I glow in the dark
You are made of light
Glow all day
Glow all night
We shine
You & II glow in the darkYou energize me
With a passion that could send me to war
Electrifying
From the heavens to the ocean floorI glow in the dark
You are made of light
Glow all day
Glow all night
Like the stars up in the sky
We keep on shining you and I
I glow in the dark
You are made of light
Glow all day
Glow all night
We shine
You & II glow in the darkTry to change me
Try, try to change me
You've never change me
(You'll never change me)
I glow in the dark, dark, dark, dark
I glow in the dark, d-dark, darkI glow in the dark
You are made of light
Glow all day
Glow all night

Like the stars up in the sky
We keep on shining you and II glow in the dark
You are made of light
Glow all day
Glow all night
We shine
You & I
