

# Glow In the Dark

## Family Force 5

You energize me  
I've never felt this before  
Oh, and it's blinding  
Brighter than the sun at its core This heart that is beating  
Without worth repeating  
A fire to be something more I glow in the dark  
You are made of light  
Glow all day  
Glow all night  
Like the stars up in the sky  
We keep on shining you and I  
I glow in the dark  
You are made of light  
Glow all day  
Glow all night  
We shine  
You & I glow in the dark You energize me  
With a passion that could send me to war  
Electrifying  
From the heavens to the ocean floor I glow in the dark  
You are made of light  
Glow all day  
Glow all night  
Like the stars up in the sky  
We keep on shining you and I  
I glow in the dark  
You are made of light  
Glow all day  
Glow all night  
We shine  
You & I glow in the dark Try to change me  
Try, try to change me  
You've never change me  
(You'll never change me)  
I glow in the dark, dark, dark, dark  
I glow in the dark, d-dark, dark I glow in the dark  
You are made of light  
Glow all day  
Glow all night

Like the stars up in the sky  
We keep on shining you and I glow in the dark  
You are made of light  
Glow all day  
Glow all night  
We shine  
You & I
