Stronger

Lamb

I'm so afraid
Something is broken now
Too much been said
To wipe it clean somehowWithout
This love
Where will I beWithout
This love
Where will I beDarkness abounds
Heaviness weighs my heart
'Round and round and round
We've gonna have to be apartWithout
This love
Where will I beWithout
(Gonna have to be)
This love
(Stronger than I've ever been)
Where will I be
(Don't know how to be without you)Without
This love
Where will I beWithout
(Gonna have to be)
This love
(Stronger than I've ever been)
Where will I be
(Don't know how to be without you)Without
(Gonna have to be)
This love
(Stronger than I've ever been)
Where will I be
(Don't know how to be without you)Without
(Gonna have to be)
This love
(Stronger than I've ever been)
Where will I be
(Don't know how to be without you)
