

Take Aim

Five Eight

Nightmares, oh nightmares come on now

Getting my days all wrong now

Risen from prison an outlaw

Spending our time in the lion's jaw

In the end you sink or swim, I'm eager, I'm eager

Loving, more loving, come on now

Socially biting your tongue now

Run down, oh run down old houses

Feeding the cats to the mouses

Oh take aim now, oh take aim now

Can you see me in the way now?

Oh take aim now, oh take aim now

Gotta get us out of here

Drop them and give them star prizes

Lock them away in high rises

Held off and called on by truncheons

Rattling keys to the dungeons

Oh take aim now, oh take aim now

Can you see me in the way now?

Oh take aim now, oh take aim now

Gotta get us out of here

Don't take me over

I bid you all farewell, I've got to leave

Tears on my shovel

Switch me off today

Oh take aim now, oh take aim now

Can you see me in the way now?

Oh take aim now, oh take aim now

Gotta get us out of here

Oh take aim now, oh take aim now

Can you see me in the way now?

Oh take aim now, oh take aim now

Gotta get us out of here

Don't take me over

I bid you all farewell, I've got to leave
