

Suzie Hold On

Saxon

I wish I had a fortune, I'd take the pain away
We could be together, that's how we need to stay
'Cause you can change the world
The world in which you live in, live in
Suzie hold on Do everything you believe to be right
Doing it all the time
Fighting the fight you believe to be right
Doing it all the time When we were far apart, no one could be closer
Please don't take your life 'cause that would break my heart
Try to stop your crying, we both know you're dying, dying
Suzie hold on Do everything you believe to be right
Doing it all the time
Fighting the fight you believe to be right
Doing it all the time I wish I had a fortune, I'd take your pain away
We could be together, that's how we need to stay
'Cause you can change the world
The world in which we live in, live in
Suzie hold on Don't you know that you can change the world
Don't you know that you can change the world
Change the world, you can change the world
Suzie, you can change the world I can't stop you crying
Even though you're dying
