## Suzie Hold On

## Saxon

I wish I had a fortune, I'd take the pain away We could be together, that's how we need to stay 'Cause you can change the world The world in which you live in, live in Suzie hold onDo everything you believe to be right Doing it all the time Fighting the fight you believe to be right Doing it all the timeWhen we were far apart, no one could be closer Please don't take your life 'cause that would break my heart Try to stop your crying, we both know you're dying, dying Suzie hold onDo everything you believe to be right Doing it all the time Fighting the fight you believe to be right Doing it all the timeI wish I had a fortune, I'd take your pain away We could be together, that's how we need to stay 'Cause you can change the world The world in which we live in, live in Suzie hold onDon't you know that you can change the world Don't you know that you can change the world Change the world, you can change the world Suzie, you can change the worldI can't stop you crying Even though you're dying
