

# Travelling Shoes

## Everon

My dear old friend, I hope you will forgive  
If you feel left alone, if you feel left alone We had been friends for too long  
To be anything but that  
And that's a thing I should have known A funny couple we must have seemed, you and I  
I was trying so hard to fall in love with you But you had your travelling shoes already on  
While I was so obviously still wearing her tattoo... My dear old friend, I hope you will forgive  
If you're running from me, then please don't run too far We've been friends for too long  
To ever let that go  
So I hope, this is still what we are...
