## DIABULUS IN MUSICA

VeritasThe sun keeps rising day after day

We rely on the sight that sees in vain

(Nothing is true)

Through take filters we observe a world

A silent enigma waits to be unfold

(Nothing is true)Between dimensions we drift

We perceive a lie and assume it's real

(Nothing is true)

Limited by our senses

Awareness being hindered betrayed by our lense

(Nothing is true)

Living our own truth (Veritas de terra orta est)

Building our own roots (Veritas filia temporis)

We will never know what's behind (Vulgus resitatis pesimus interprets)Living our own truth (Veritas de terra orta est)

Building our own roots (Veritas filia temporis)

We will never know what's behind (Vulgus resitatis pesimus interprets)(Veritas filia dei)  
(Veritas filia dei)

(We live our own truth)

(Veritas est adequatio rei et intellectus)Veritas

Living our own truth (Veritas de terra orta est)

Building our own roots (Veritas filia temporis)

We will never know what's behind (Vulgus resitatis pesimus interprets)Living our own truth (Veritas de terra orta est)

Building our own roots (Veritas filia temporis)
