

# Ain't No Mystery

## Darlington Road

Baby girl it ain't no mystery  
I could tell it when you kissed me  
For the first time under that street light  
That you & I would make history  
You thought my heart wasn't listening  
I remember like it was yesterday

We were just  
Two kids kids fallin' for each other  
Sneakin' 'round like we were undercover  
Down every back road  
And every highway  
Just tryin' to find that secret place  
While that light would flash on the tower  
You and I would get lost for hours  
I swear I could hear your eyes say

Hold me baby, drive me crazy  
Take my breath away  
Then I would pull you closely to me  
Kiss you smoothly  
and that would take your breath away

Baby girl it ain't no mystery  
I could tell it when you kissed me  
For the first time with my last name  
We were just two kids who fell for each other  
Turnin' into fathers and mothers  
And stealin' date nights  
On some Friday  
Just trying to find time to get away  
Well, that light still flashes on the tower  
What do you say we get lost for an hour  
I bet I can make your eyes say

Hold me baby, drive me crazy  
Take my breath away  
Then I would pull you closely to me  
Kiss you smoothly

and that would take your breath away, ya

From those bad times with those break ups  
To good times and those make ups  
Girl you know my fire is burning stronger everyday

When we're old and near our last hour  
Let's drive out to that tower  
I wanna hear your eyes say

Hold me baby, drive me crazy  
Take my breath away  
Then I would pull you closely to me  
Kiss you smoothly  
That would take your breath away  
Yeah, yeah away every single day  
You take my breath away  
Oh oh baby don't you know you take my breath away
