

# Summertime Fever

Tracy Byrd

Well I went to the doctor to tell him the news  
I got a feeling from my head to my shoes  
Nurse said "Sorry, but the docs not in.  
He's got the fever too, its Summer again." [Chorus]  
Long necks, Rednecks, Barbecues  
Somethings always going on  
Spreading like a fire in the morning news  
From your skin right down to your bones  
Yachts and john boats? Floating on the river  
Everyone's catching that summertime fever Mini-skirts , and roaming sandals  
Women so hot they aught to have handles  
Fireworks on the fourth of July  
Baseball, Hot dogs, apple pie Take off you're T-Tops off your T-bird  
Cut off your blue jeans peel off your shirts  
Yachts and john boats? Floating on the river  
Everyone's catching that summertime fever [Chorus] Suntan oil so you don't blister  
Everybody's got that summer time fever
