Let Me Come Into Your Life

Larry Graham

Let me Come into Your Life
Larry Graham

I?ve been watching you, watching everything you do
And girl you sure look blue
I can plainly see you need much more than company
Just what you need is me

I can tell by the smile you wear
I?ve seen that look before (before),
I can tell by the look in your eyes
You need my love, that?s for sure

Cho
I can be such a wonderful thing in your life
If you let me
I can be such a wonderful thing in your life
If you let me
So please let me come into your life

Now your day has come
It?s not too hard to see just where I?m coming from
I want to make us one
And darling from now on it?s me an? you together
In our happy home
Just singing happy songs

Rept. Cho twice
