

# Stronger Than the Night

## Air Supply

Tonight, you are the world to me, part of the mystery  
And we don't need a reason to love  
Say you'll never go, that's all I need to know  
And when you close your eyes, I'll still be here  
And if the world falls  
You will be the only reason to love  
I'll find my way One heart may lie, one kiss may die  
But we live, live and learn to fly  
Beyond the darkest sky  
Stronger than the night If you hold me now, all that I feel is yours  
Cause you're the only reason to love  
What you are to me, is all that you need to be  
And when you touch the stars, I will be there  
And when the world falls away  
I will be your only reason to love  
Until that day One heart may lie, one kiss may die  
But we live, live and learn to fly  
Beyond the darkest sky  
Stronger than the night
