Endless

Marie Hines

EndlessHow do you really measure the years
By the hourglass or the traveled fields
And I'll still the hand that fixes time
Cause I've got a love that won't run dryHold me close
Never let go
Beating hearts
And they echo, echoThis love is endless
This love is endless
This love is endless
This love is, my love isYou are what I've searched to find
Like a sky with no horizon line
Oh my love will stretch the earth
To show you what your heart is worthHold me close
Never let go
Beating hearts
And they echo, echoThis love is endless
This love is endless
This love is endless
This love is, my love is endlessPen to page, we'll live on
When centuries have come and gone
Ooo my heart will span the river wide
Cause I've got a love that won't run dry
