

# Funeral Night

## Bella Morte

Advisory - the following lyrics contain explicit language:

With night fading fast  
Let us walk to keep the time away  
    My heart is so cold  
    I know what is right  
What to do when all has passed away  
    Will you still stay strong?  
Steadfast when will has gone?As here we stand hand in hand  
    In this funeral night  
    Can't I see that we both will fall  
    Can't you see my dry tears  
    On this skin so cold  
    Even now the Reaper comes  
    Though you are here I am afraid  
I am afraid, my loveWith night fading fast  
    Warmth is but a memory of youth  
    As our day grows old  
    I can't bear to part  
With so many things I hold so dear  
    But all things must fall  
How well I know the graveWe must stand strong  
    And face our fears until the end  
    'Til the time when truth is found,  
    When at last we can rest
