Psychotic Girl

Spec Boogie

I heard you threw your man around
Pick him up just to let him down
It's a shame baby but I always knew
Just the way you're gonna do, ohOh no, just a psychotic girl
And I won't get lost in your worldFriday night, the party light
You were acting like everything was alright
Till later on with no one around
Had me fighting for air, laying on the ground, oh noOh no, just a psychotic girl
And I won't get lost in your worldI thought you'd changed but I shoulda known
You'd play nice for a time and then you do me wrong
I thought long and hard 'bout what I should say
And when I was through it just came out this way, oh noOh no, just a psychotic girl
And I won't get lost in your world
