

teenager (idiot version) (feat. michael harris)

Deftones

I climbed your arms
Then you pulled away
A new cavity moved into
My heart todayThe more she sings
The more it seems
Now I'm
Now I'm through
With the new youNow I'm through
With the new you
New youI drove you home
Then you moved away
New cavity moved into
My heart todayThe more I scream
The more it seems
That I'm throughNow I'm through
With the new you
Now I'm through
With the new you
Now I'm through
With the new you
New you
