

# Majesty of Love

Jon Dee Graham

In the car, far away from home  
Classic rock on the radio  
Workin' On The Night Moves, and it started to snow  
I was thinkin' of  
The majesty of love  
The majesty of love  
The majesty of love

When you are so mad at me  
When you are so in love with me  
And when you don't know how it's going to be  
I am thinking of  
The majesty of love  
The majesty of love  
The majesty of love

Nothing matters next to this  
Baby's breath, and the very first kiss  
Oh... it allows me to go on  
It allows me to go on  
It allows me to stay strong

At the party I was watching you  
With your friends and the children too  
And all the while you never knew  
I was thinking of  
The majesty of love  
The majesty of love  
The majesty of love

---
