

# That's What You Do to Me

[Charly McClain](#)

Love me high, love me low  
Love me till I don't know which way to go  
That's what you do to me  
Whoa, that's what you do to me Love me wrong, love me right  
Got me long before you offer the night  
That's what you do to me  
Whoa, that's what you do to me Your love is like a river an' somewhere in the middle  
We're caught between your heart an' your hand  
Each time I think it's real, it's such a helpless feelin'  
With you I never know where I stand Just a touch takes my desire  
From your fryin' pan right into your fire  
That's what you do to me  
Whoa, that's what you do to me Your love is like a river an' somewhere in the middle  
We're caught between your heart an' your hand  
Each time I think it's real, it's such a helpless feelin'  
With you I never know where I stand Just a touch takes my desire  
From your fryin' pan right into your fire  
That's what you do to me  
Whoa, that's what you do to me That's what you do to me  
Whoa, that's what you do to me  
That's what you do to me  
Whoa, that's what you do to me
