Here comes the cold Here comes the cold  
Across the plains and over the fields  
Nights are long by my river home and I  
Miss the way that your love feels oh I  
Miss the way that your love feels

V1.

The fire is low and I've been thinking about you  
Your auburn hair is shining in the sun  
There's a mountain up ahead, I'll climb it in the morning  
Tonight I've got your memory here to keep me warm - Here comes Cold

## Chorus

V2.

The days pass slowly and you're far away  
The wind at my back chills me through  
The sky won't open up, the clouds the block the way  
I'll bed down in the night and dream of a better day - Here comes the Cold

## Chorus

Ending chord is F add 9 to fade
