

# We Swam From Albatross, The Day We Lost Kailey Cos

## Chiodos

the next chance i get,  
i'm just going to take it.  
take this and everything.  
so say goodbye now  
no,i won't be back around,  
and well it's all over now  
there in the heart that will never be filled,  
and we will wait,  
we will wait in that place.  
still all i'm looking for is something,  
something that i've found.  
if i were two-faced, would i be wearing this one?  
everything that happened between us was real.  
so say goodbye now  
no,i won't be back around,  
across the ocean,  
hear her screams.  
across the ocean,  
hear her screams.
