

Lady of the Fire

Helium

Lady, QUEEN of fire,
come on, be my girl, o o o oh yeah
Why I can't let you be
is a mystery to me I can't believe what you just said
Over my body when you know that I'm dead
I was born underground, I had two horns
And I'm gonna make love to the unicorn Come on, boys Baby, I'm gonna watch you roll,
I'm outta control, o o o
It's this electricity,
won't let me be
ELECTRIC hearts may cause a fire,
I can't be messin' with the "human desire"
'Cause I found a STAR on its final course
Above a rider, on a big white horse
let's ride into the future
