Mentobe

Taproot

Fly so high like a star, I'm straight up
Representin' the spirit in the world
That keeps on forgettin' the meaning of lifeAll things are dancin' in the rhythm
Of eternal harmony, astrology, the portrait of wisdom
Across the skies is full of truth, no liesLike a star I'll shine every night without you
By my side feels so right, all alone in a world
So cold, no, I'm not alone in a world so cold
