

# Birth of the Omnisavior

## Rivers of Nihil

I awaken with, no memory of life  
Though I feel the omniscient is inside me  
Course through my veins, abduct my brain.  
In this catatonic state I am enlightened  
Plain white, Sterility surrounds me  
Wooden Visage of the lord observes my being  
Tubes and wires force me to be, force me to see.  
The universe, inside these four walls  
All of existence, trapped within my skull  
Is this really life? All is pain  
Infinite knowledge, driving me insane  
No speech no, sound  
Just thoughts and sights  
Deconstruct the man that I used to be, tear him limb from limb.  
Erase this life. I'll be born again  
In this catatonic state I am enlightened  
Plain white, Sterility surrounds me.  
Wooden Visage of the lord observes my being  
Tubes and wires force me to be, force me to see.  
Speaking to me, the only voice I hear.  
Caresses me with its cold and static logic  
I am alone, cannot express my fear  
Wooden Christ speaks and I'm force to listen  
Seeping through me, the plague of godly sin  
I hear clearly the tone of his acid whisper  
I am not alone, I am never alone  
We become one in the birth of the Omni savior  
This birth negates me, I face immortality.  
Deconstruct the man that I used to be, tear him limb from limb  
Erase this life I'll be born again, born again, again, again.  
I awaken with no memory of life  
Though I feel the omniscient is inside of me  
You are my veins, you are my brain.
