Temples Of Gold

Kamelot

I see you when it snows in crystals dancing down
From a sultry sky when silence is pure and unbreakable
I can see you smiling in every frozen tear
I can hear you whisper, "You and I?"Little did we know that they were life itself
The days passing by, we both had our share in the sacrifice
Once upon a time, we had something beautiful
Once upon a time, I thought you and I?Take me wherever the answer lingers in the sand
Show me the way as the story unfolds
Love is remote in this wailing winter wonderland
Show me the way to the temples of goldBless me with a kiss
Across the universe
When day and night converge
And whisper my name till I fall asleepTell me tales from days bygone, tell me little lies
Tell me once again it's just, you and I?Take me wherever the answer lingers in the sand
Show me the way as the story unfolds
Love is remote in this wailing winter wonderland
Show me the way to the temples of goldTake me wherever the answer lingers in the sand
Show me the way as the story unfolds
Love is remote in this wailing winter wonderland
Show me the way to the temples of goldTake me wherever the answer lingers in the sand
Love is remote in this wailing winter wonderland
