Second Hand Heart

Gerry Guthrie

Tell me darling is there someone else sharing all my love
When I hold and kiss you is it him you're thinking of
I've gat this feeling deep inside I don't know what to do
Where has all our love gone where is me and you.

There's no need to pretend you're still in love with me
Although weed will break my heart I will set you free
I want you here beside me, only if your love is true
Right now I feel the one I love, loves somebody new.

You know we were happy from the very start
when you said you love me I gave you my heart
The life we share together now we'll drift it apart
What can I do with this second hand heart.

All the love that we had was not enough for you
The Life we plan together, dreams that wont come true
You have found another my world stands apart
All that's left for me is to heal this broken heart.

You know we were happy from the very start
When you said you love me I gave you my heart
The life we share together now we'll drift it apart
What can I do with this second hand heart.

Someday I'll get over you this heart of my new name
And maybe one day I will fall in love again
Till then I'm free soon enough not a worry or a care
coz when love tends too hard eh the pain is hard to bear.

You know we were happy from the very start
When you said you love me I gave you my heart
The life we share together now we'll drift it apart
What can I do with this second hand heart.
The life we share together now we'll drift it apart
What do I do with this second hand heart. Tell me darling is there someone else sharing all my love
When I hold and kiss you is it him you're thinking of
I've gat this feeling deep inside I don't know what to do
Where has all our love gone where is me and you.

There's no need to pretend you're still in love with me
Although weed will break my heart I will set you free
I want you here beside me, only if your love is true
Right now I feel the one I love, loves somebody new.

You know we were happy from the very start
when you said you love me I gave you my heart
The life we share together now we'll drift it apart
What can I do with this second hand heart.

All the love that we had was not enough for you
The Life we plan together, dreams that wont come true
You have found another my world stands apart
All that's left for me is to heal this broken heart.

You know we were happy from the very start
When you said you love me I gave you my heart
The life we share together now we'll drift it apart
What can I do with this second hand heart.

Someday I'll get over you this heart of my new name
And maybe one day I will fall in love again
Till then I'm free soon enough not a worry or a care
coz when love tends too hard eh the pain is hard to bear.

You know we were happy from the very start
When you said you love me I gave you my heart
The life we share together now we'll drift it apart
What can I do with this second hand heart.
The life we share together now we'll drift it apart
What do I do with this second hand heart.
