

# Natural Law

## Frazey Ford

I'm going to let you fall  
Let you go to the natural law  
The natural law Like Clay in my hand  
Like the tumbling clear waves on the sand,  
the waves on the sand Taking light of this body,  
this body  
And all your trust passes that surrounded me, yeah  
I let the arrow fly and this truth pours from me  
and shatters everything  
I never thought that I could stand before you,  
right where I stood right where I stood,  
right where I stood  
cuz everywhere I go  
The moon and stars surround me like a dome,  
round me like a dome  
Like a dome Taking light of this body,  
this body and your trespasses that surrounded me,  
yeah I let the arrow of this truth fly from me  
I let the arrow fly and this truth pours from me And shatters everything
