

# Strike

## Apartment 26

The situation is critical  
Evacuate, alarm, strapped down and still  
Flicked switched will detonate  
Causing me no harm 'til I'm cut to size I call to memory  
Times I hold you down like that Does anyone believe it's me  
That I'm trying to rescue?  
There's something like a void I feel  
And I'm dying to tell you The situation is critical  
Evacuate, alarm, strapped down and still  
Flicked switched will detonate  
Causing me no harm 'til I'm cut to size I call to memory  
Times I hold you open Does anyone believe it's me  
That I'm trying to rescue?  
There's something like a void I feel  
And I'm dying to tell you It's causing us no harm  
So hold me open, calm me down like that
