

# Shapeshifter

## Septic Flesh

[Music: Chris A., Lyrics: Sotiris V.]The transformation of the butterfly occurs in reverse

Beauty eaten abruptly from the ancient worm

Wearing sharp shard

Stolen from scattered

Broken mirrors

As a cloak to cover meMy strange images

nest as birds to the hearts of men

And as birds fly away

Taking their thoughts into oblivion

Disintegrating the elemental bonds

I obtain the rapture of the chameleonWhen I become enraged

With the frenzy of the wolf on the hunt

I am the most cherished child of fearArmed with fangs deadly like daggers

I am an adept on the skills of murder

I am the shape shifterOn the ruins of a ghostly projection

echoes the lust for life

An ancient purgatory for the sinisterShape shifter
