

I'm Gonna Soothe You

[Maria McKee](#)

I've got a thing for you, baby, always have
Never knew how far my heart would take me
She's my friend but she treats you bad
Can't let that happen to such a decent man
If you let me in, let me stay a while
I'll do more than make you smile
Come to me child
I'm gonna soothe you
I'm gonna soothe you
Hey baby, hey baby
I know just what to do
I'm gonna soothe you
My baby, my baby
Don't worry, I won't do you any harm
My touch is gentle, my body is warm
Lift your head, feel my cool hand on your face
Let me kiss your tears away
If you let me in, honey, let me stay
Lay your head on my breast
I'll do the rest
I'm gonna soothe you
I'm gonna soothe you
Hey baby, hey baby
I know just what to do
I'm gonna soothe you
My baby, my baby
Can you feel it comin' down like a trance?
Forget your head, remember how to dance
Can you feel it comin' down like healin'?
So deep, it just couldn't be a sin, now baby
Walk on in
Make yourself at home in my arms
I'm gonna soothe you
Hey baby
I know just what to do
I'm gonna soothe you
My baby, my baby
I'm gonna soothe you
I'm gonna soothe you
Hey baby, hey baby
I know just what to do
I'm gonna soothe you
My baby
I'm gonna soothe you
