

Digital Suicide (Lullaby)

Heartsrevolution

Sonic youth with sonic dreams, suicidal tendencies
sonic youth with sonic dreams, suicidal tendencies

i left a trail of pills to find my broken heart in your lost mind
here i go, losing control

watch me slip down the rabbit hole

happiness is a state of mind i've tried to visit from time to time
sonic youth with sonic dreams, suicidal tendencies

here i go, losing control
i left a trail of pills to find my broken heart in your lost mind

i used to go on a ride for two, i've proved i'll do it all for you
catch me in the middle of the night
with dreams so fierce i hold you tight
it's the very thing that i'm out to love
and i hate this game and i wanna get off tonight
stop the world, stop the world, stop the world
i wanna get off (tonight)

sonic youth in your tears, sonic youth in your fears
sonic youth with sonic dreams and suicidal tendencies
