

Prayer

Hayley Westenra

Let Your arms enfold us
Through the dark of night
Will Your angels hold us
Till we see the light
Hush, lay down your troubled mind
The day has vanished and left us behind
And the wind whispering soft lullabies
Will soothe, so close your heavy eyes
Let Your arms enfold us
Through the dark of night
Will Your angels hold us
Till we see the light
Sleep, angels will watch over you
And soon beautiful dreams will come true
Can you feel spirits embracing our soul
So dream while secrets of darkness unfold
Let Your arms enfold us
Through the dark of night
Will Your angels hold us
Till we see the light
Let Your arms enfold us
Through the dark of night
Will Your angels hold us
Till we see the light
