

# Our Love (Will See Us Through)

[Nina Simone](#)

Anytime things go wrong  
Baby we'll still get along  
Cos we have each other  
And our love will see us through If some tears come our way  
The sun skips a day  
We still have each other  
And our love will see us through Just as long as you and I  
Have a little tender kiss to share  
There's no doubt at all that we'll get by  
Grey skies will all turn blue So when some clouds bring the rain  
We've no cause to complain  
Cos we have each other  
And our love will see us through  
Cos we have each other  
And our love will see us through
