Safe

Katie Armiger

Ooh, I wasn't lookin' for love
It didn't really fit inside of my world but
One look in your eyes, And I completely changed my mind
Ooh, I wasn't lookin' for you
But you found me just like you were made to
And it's crazy know to think about how we almost live without... each other

I, I, love spendin' all my time
Lying right here by my side
A place where I can always stay, cause you
You make me feel safe
You make me feel safe

I didn't want to jump the gun
And be the one to say I love you so soon
But when I look at you, the truth is,
Baby now I do I do

I, I, love spendin' all my time
Lying right here by your side
A place that I can always stay, cause you
You make me feel safe
You make me feel safe

A place that, a place that I belong
Wrapped here inside your arms
No fear no harm to my heart

Ooh

I, I, love spendin' all my time
Lying right here by your side
A place that I can always stay
Oh baby say you'll always stay
Cause you, you make me feel safe
You make me feel safe

Ooh, ooh
