# Gone

## TR/ST

You spit out the rind
It's consumed me, I'm a disaster
Blistered scornful eyesYou could never decide
Days like this I'm slime
I am motionless in the bedroom
I need it to come alive
Barely love, all this timeGone
It's gone, it's gone
Gone
It's gone, it's gone
We tore off through the night
I watched the sun come up with my capture
I watched you cherish me while
I never had the time
Not a waste of sky
Did I ever tell you I need you?
To lead me through the fog
I feel the silent sense I'm fineGone
It's gone, it's gone
Gone
It's gone, it's goneAnd when the sun comes up and lights
You're falling in and out of love
Gone
It's gone, it's gone
I'm wearing all the signs
I'm wary all the time
You used to be much closer to me
Whenever you should
Whenever you fool
These memories woundAnd when the sun comes up and lights
You're falling in and out of love
Gone
It's gone, it's goneCrawling
I'm ashamed I showed
Calling
Are my teardrops gone?
Crawling
I'm ashamed I showed
Calling

Is my caution gone?
