Don't Ask

Wolcot

I may not always show it
But deep down don't you know that I care?
There are no words to tell you
But if there were I'd tell you, I swear
I'm not the kind of guy
Who shows how he feels inside
Don't ask me to say it
You know that I love you
Don't ask me to prove it
There's no one above you
I watch you when you're dressing
I love the way you play with your hair
The simple things I notice
I'd know if they were no longer there
I just can't explain
Why I'm speechless once again
No, don't ask me to say it
You know that I love you
Don't ask me to prove it
There's no one above you

Yeah, remember the good times we had a ball
We shared them together
Forget all the bad times, we beat them all
We beat them together
Don't ask me to say it
You know that I love you
Don't ask me to prove it
There's no one above you
Yeah, don't ask me to say it
You know that I love you
Don't ask me to prove it
There's no one above you
Yeah, don't ask me to say it
You know that I love you, baby
Don't ask me to prove it, oh
There's no one above you
Yeah, don't ask me to say it
No one, there's no one above you, baby, no

Don't ask me to say it
