Keep What We Love & Burn the Rest

blessthefall

I hear your voice inside my head
Like a ghost returning
Got you on my mind
Well, my eyes are not the same
When you're nowhere near me
Always on my mindI try to tell myself that I'll see you again
Try to understand why I still pretendI try to tell myself that I'll see you again
Try to understand why I still pretend
So I lie awake
Waiting for the day you're near me(Oooooh)
The times we had
(Oooooh)
The moments passedI try to tell myself that I'll see you again
Try to understand why I still pretendI try to tell myself that I'll see you again
Try to understand why I still pretend
So I lie awake
Waiting for the day you're near meI try to tell myself that I'll see you again
Try to understand why I still pretend
So I lie awake
Waiting for the day you're near me
