

Keep What We Love & Burn the Rest

[blessthefall](#)

I hear your voice inside my head
Like a ghost returning
Got you on my mind
Well, my eyes are not the same
When you're nowhere near me
Always on my mind I try to tell myself that I'll see you again
Try to understand why I still pretend I try to tell myself that I'll see you again
Try to understand why I still pretend
So I lie awake
Waiting for the day you're near me (Ooooooh)
The times we had
(Ooooooh)
The moments passed I try to tell myself that I'll see you again
Try to understand why I still pretend I try to tell myself that I'll see you again
Try to understand why I still pretend
So I lie awake
Waiting for the day you're near me I try to tell myself that I'll see you again
Try to understand why I still pretend
So I lie awake
Waiting for the day you're near me
