

Bad Reputation

Haley Bonar

After some thought on the subject
I've decided that I've kind of lost it
I feel stupid and confused on anything that has to do with you and I got a bad reputation
I got a bad reputation Too much coffee and no smoking
I feel a little lame like I'm kinda boring
I wish I could date my former self
She'd be a fun girlfriend
She'd be a fun girlfriend She got a bad reputation
She got a bad reputation
She probably needs medication
She don't care about no reputation
And I've lost a little bit
But I'm gonna go find it
Yeah, I'm gonna go find it I have dreams about the end of the story
There's no explosion, there's never any holy glory
Just a bunch of people lost and sleeping
Trying to find someone
Trying to find someone We got ourselves a bad situation
We got ourselves a bad situation
We gotta get to the next Space Station
To save ourselves from this bad reputation We've lost a little, but we're gonna go find it
Yeah, we're gonna go find it
I got a bad reputation
I got a bad reputation
I probably need medication
To save myself from this bad reputation
