Colder

Brainstorm

come, oh, come early
i'm afraid of getting colder, colder
keep the night burning
to shine our love always, alwayspictures on the wall
her pictures on my wall
she's so beautiful, so beautifulclimbing up to fall
i'm climbing up to fall
i'm still staying cool, i'm staying coolone day i'll find you just to prove that i'm real
out of love and hate, of love and hate
and losing ties with common sense, baby, i know
i will make a bridge to place where my mind goescome, oh, come early
i'm afraid of getting colder, colder
keep the night burning
to shine our love always, alwaysthousands of the walls
8 billions of the walls
she's so beautiful, so beautifuldigi-dogs around
her digi-dogs around
i'm still staying cool, well, i'm staying cooli'm losing all i have and all i ever will
out of love and hate, of love and hate
i'm losing daydreams and a good night sleep
oh, baby, our passions are hiding deepcome, oh, come early
i'm afraid of getting colder, colder
keep the night burning
to shine our love always, alwayscome, oh, come early
i'm afraid of getting colder, colder
keep the night burning
to shine our love always, alwaysalways, always
