

# Someone Should Tell Her

## The Mavericks

Someone should tell her how much I love her  
Before she goes and runs away with him  
If you should see her tell her I need her  
Maybe then she'll come back to me Ever since I broke her heart  
She won't talk to me  
All I need is a one last chance  
To make up and say I'm sorry Someone should tell her how much I love her  
Before she goes and runs away with him  
If you should see her tell her I need her  
Maybe then she'll come back to me I've never been the kind  
To get down on my knees  
If she could see me now  
A lonely man who's begging please Someone should tell her how much I love her  
Before she goes and runs away with him  
If you should see her tell her I need her  
Maybe then she'll come back to me Someone should tell her how much I love her  
Before she goes and runs away with him  
If you should see her tell her I need her  
Maybe then she'll come back to me Maybe then she'll come back to me  
Maybe then she'll come back to me
