Hand of Doom

Carnal Forge

There is a war inside your head
You're losing the battle against yourself
So awake the unholy spirit of your soul,
Destroy your inner fears and go...My hands of doom, will lead the wayA fistful of hate is not enough,
Your vicious pain is all you've gotMy hands of doom, will lead the way
My hands of doom, will take you to the graveMy hands of doom will take you thereJust face it life is Hell,
So welcome death to end your misery
Just face it life is Hell,
So welcome death...My hands of doom, will lead the wayI am the demon inside you, who won't come out
I am your unknown conscious, tearing you apartMy hands of doom, will lead the way
My hands of doom, will take you to the graveMy hands of doom will take you thereJust face it life is Hell,
So welcome death to end your misery
Just face it life is Hell,
So welcome death...Your soul possessed by me,
I rule your mind
You're trapped inside yourself,
My hands of doom will lead the way
