One With The Underdogs

Terror

born with nothing
and that was most of us
raised in unemployement lines
grew inside domestic crimesalways against the odds
one with the underdogsstepped on since day one
taught to accept defeat
expectations of a failure
always told me i was nothingalways against the odds
one with the underdogswe are the underdogshad to scratch and fight
just to stay on my feet
with a heart made of steel
i smashed through everythingalways against the odds
one with the underdogs
