

One With The Underdogs

Terror

born with nothing
and that was most of us
raised in unemployment lines
grew inside domestic crimes always against the odds
one with the underdogs stepped on since day one
taught to accept defeat
expectations of a failure
always told me i was nothing always against the odds
one with the underdogs we are the underdog had to scratch and fight
just to stay on my feet
with a heart made of steel
i smashed through everything always against the odds
one with the underdogs
