

# Dark Side of the Moon

## Redlight King

I've been to the dark side of the moon  
I've been to the wrong side of the track  
Where the night goes on forever  
Feels like I won't be coming back  
Where the right side of the sun  
Is nowhere to be found  
And there's no one left behind you  
And the silence shakes the ground  
And all you see is black  
Get the hell outta here  
And don't be coming back On the dark side of the moon  
The place of no return  
A place you won't remember  
Where all you've got is hurt  
On the south side of the Earth  
Where there's nothing in your heart  
It'll all be over soon  
I'll watch you fall apart  
On the dark side of the moon...  
On the dark side of the moon...I've been to the dark side of the moon  
I've been to a place where foragers fly  
When everything you've got gets taken from you  
Hell, they don't give you a reason why  
Now you're starving for forgiveness  
And you've seen the angels cry  
And the nightmares creep behind you  
Until their looking you in the eye  
And all you see is black  
Get the hell outta here  
And don't be coming back On the dark side of the moon  
The point of no return  
A place you won't remember  
Where all you've got is hurt  
On the south side of the Earth  
Where there's nothing in your heart  
It'll all be over soon  
I'll watch you fall apart  
On the dark side of the moon...  
On the dark side of the moon...It's all breaking down

Lost in the daze of the world we left behind  
It's all over now  
Trying to save anything you have inside  
On the dark side of the moon  
The point of no return  
A place you won't remember  
Where all you've got is hurt  
On the south side of the Earth  
Where there's nothing in your heart  
It'll all be over soon  
I'll watch you fall apart  
On the dark side of the moon  
On the dark side of the moon  
On the dark side of the moon  
On the dark side of the moon
