Lovebites and Razorlines

Glassjaw

Who you fucking now?
I use my slit wrist, sign my name with
And when you can't compete with the Joneses
You gun 'em all down, even the fatherYou fucking whore
Shut up and swallow my pride for me, go
Move closer and drive further
So I just suck on the end of this dick that cums lead
But [Incomprehensible]It's ladies night at the bar
But she smokes a man's cigar
And I guess she's dying, oh look
I don't give a fuck about your dignity
That's the bastard in meI know a girl
Who sells herself around
And I'm sure that one day
She'll sign autographs in your town'Cause [Incomprehensible]
You fucking whore
Who you fucking?
Who you fucking now?Shut up and swallow my pride, go
Move closer or drive farther
For as you suck on the end of my dick that cums lead
I'll make sure to fight you allLooking back into my diary
What makes me say these things?
What causes my laughter at another's disaster?
It's the bastard in me
You fucking whoreI know a girl
Who sells herself around
And I'm sure that one day
She'll sign autographs in your townI know a girl
Who sells herself around
And I'm sure that one day
She'll sign autographs in your townWho you fucking now?
You fucking in this shit
You shit to me, you mean shit
I don't love her, you shit, you mean shit
You fucking whoreI strain myself I guess, I guess
I fuck myself I guess, I guess
I strain myself I guess, I guess
I mean it fucking whore
You live in shit

And you will eat your own wayEvery night
I am too fly and shy
Too fly and high
Like no other guyToo fly and shy just for you
I'm too fly and shy and I'm like no other guy
I'm too fly and shy just for you
And I'll mark you allI know a girl
Who sells herself around
And I'm sure that one day
She'll sign autographs in your townI know a girl
Who sells herself around
And I'm sure that one day
She'll sign autographs in your townWho you fucking now?
You fucking eat shit, you filthy shit
Who you fucking now?
Who you fucking now?
