

# For What Its Worth

## Barcode

Dont want your interest  
Dont need your worries too  
For what its worth, no less  
Giving up on everything  
Im leaving it all behind  
The crucial sacrificeBypass, recast  
Go kiss my fucking ass  
Last rites, the final blastUnstable hallowed the  
Restless for evermore  
Withdrawn immunity  
These unreliable bondsThis lust for lowest low  
This need for no response  
Let it go  
Back off, my life, my show  
Out of sight, out of mind, let goBypass, recast  
Go kiss my fucking ass  
Witness the final blast
