

# Long Hard Road

## Pale Green Stars

There's a long hard road ahead  
But a voice inside me said  
You know there's something, oh, that you need to know  
It's gonna be alright  
Said there's something that you need to know  
It's gonna be alright  
When in this life, in this life  
When I can only turn my chin  
I know it's gonna be alright  
When this big old town is closing in  
And I have lost again, oh no  
Here I could stay but I'll keep moving on  
Here I could stay but I'll keep moving on  
Could be I won't be wrong  
There's a long hard road ahead  
But a voice inside me said  
Said there's something, oh, that you need to know  
It's gonna be alright  
Said there's something that you need to know  
It's gonna be alright
