Home (PBJ Alternative Radio Mix)

Paul van Dyk

People poor their concrete floors
They built their churches and their walls
Painted pictures of their hopes, fears on them
A Single love, containing touch, it changed the system and said "no"
And I can see it all in youth love, in your eyesExplode with life
Explode with life
Cover in your lifeMy home is where you are
And every beat and every feet
We're closerMy home is where you are
And every beat and every feet
We're closerThey fashion streets out of the rock
Struck up statues to their gods
And hung up flight on every corner - amenWe are charged spoil in to go
Bring me back to where I'm from
A billion molecules are landing of in your heartPoss in with life
Poss in with life
Poss in with lifeMy home is where you are
And every beat and every feet
We're closerMy home is where you are
And every beat and every feet
We're closer
