Monster Metal

Nekromantix

some people call it evil,
others name it mental rape
once you've been spellbound
there is no escapenow it's time for you to let loose
we dont care what they say
join this revelating cruise
'cause monster metal is here to staysuicide and destruction
is what they fear
yeah yeah its brutal, yes, but dangerous
only for our earsnow it's time for you to let loose
we dont care what they say
join this revelating cruise
'cause monster metal is here to stayi cant help jumping around
to the beat of this psychotic sound
is this heaven or is this hell
im forever submitted to this monster spellnow it's time for you to let loose
we dont care what they say
join this revelating cruise
'cause monster metal is here to staysplatter horror rock n' roll,
crazy you us find
well, death is part of life,
always keep that in mindnow it's time for you to let loose
we dont care what they say
join this revelating cruise
'cause monster metal is here to stay (x3)
